Delivery Guidelines

Containers4saleuk can deliver and offload any container to any UK destination. Our vehicles are equipped with large cranes and offload to the side of the vehicle. Please see below our Delivery Guide ensuring you adhere to our guidelines.

- All deliveries are quoted externally to your premises (i.e. not inside the building)
- Please tell us if the container has to be lifted over buildings, walls or any obstructions.
- Ensure your area is level and has hard standing capacity.
- Ensure the location you select is free from drain or fire exits. If units need to be repositioned after delivery, there will be an extra charge.
- All deliveries are made on a best efforts basis.
- It is the customer's responsibility to ensure the site/delivery location is accessible and suitable for HGV deliveries.
- The customer must ensure a representative is on site to meet the vehicle driver.
- Please ensure that you are satisfied before the driver leaves your premises.
- They will require a signature to confirm that the unit is in the correct position, the doors operate correctly, padlocks work (if supplied) and there are no defects with the equipment.
- In certain circumstances if the site conditions are poor we may not be able to deliver your container and may have to abort the delivery at your cost so please ensure we are made aware of every eventuality possible.

Container Dimensions

	External Dimensions			Internal Dimensions		
	Width	Height	Length	Width	Height	No of Pallets
