

## Container Twist Locks (Pairs)

**Availability:** In Stock

**Price:** £84.00

### **Description**

A twist lock and corner casting together form a standardised rotating connector for securing shipping containers. The primary uses are for stacking containers on top of each other, locking a container into place on a container ship, semi-trailer truck or railway container train; and for lifting of the containers by container cranes and side lifters. Please note: When selecting quantity please note that each single purchase comes as a pair – for example if your cart says 1 you have a pair of twist locks\*
